About Business Ready Solutions, LLC

Understanding business management software inside out is one thing. Understanding the software and what it needs to do for you and why from an accountant's perspective is entirely different.

"Business Ready Solutions provides excellent consulting services. They guided us through our initial implementation project, expansion into additional Dynamics modules, and upgrades – always on schedule and within budget. The Business Ready Solutions team provides guidance to both our accounting and information technology departments. They are a valued business partner of Murphy Family Ventures."

**Hope Turnbull, CPA
Director of Accounting
Murphy Family Ventures LLC**

This is how Business Ready Solutions, LLC stands apart from other solution providers. Our team includes accountants, CPAs, Microsoft Certified Professionals, and seasoned consultants with deep finance and technical expertise to implement and support Microsoft Dynamics GP as well as advise your accounting, reporting and compliance requirements. We understand the day to day responsibilities of finance professionals.

Business Ready Solutions has successfully completed hundreds of accounting and ERP installations for small and mid-size businesses across a wide range of industries. Our company began as a division of a local CPA firm in 1995 and became an independent entity in 2007. We've built an outstanding reputation, supporting our clients and providing exceptional technology and business consulting services.

We've migrated many of our clients from entry level accounting software such as QuickBooks and Peachtree to Microsoft Dynamics GP as their company grew and needed

more sophisticated business intelligence and reporting capabilities with more concurrent users accessing the system. We also helped clients switch from other accounting systems such as MAS 90/200 to Dynamics GP.

Business Ready Solutions, LLC takes the time and makes the effort to understand your organization's needs to improve your business with solutions that fit your industry, schedule, and budget. We build life-long relationships with our clients, and welcome the opportunity to grow with you and respond to new challenges and opportunities.
